

Stewart Investors Indian Subcontinent Sustainability Fund Class VI (Accumulation) USD

a sub-fund of First Sentier Investors Global Umbrella Fund plc (the Company)

ISIN IE00BF18T991

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Objectives and investment policy

Objective: The Fund aims to grow your investment.

Pursuant to the EU Sustainable Finance Disclosure Regulation (EU 2019/2088), this Fund also has sustainable investment as its objective under Article 9.

Policy: The Fund invests at least 70% of its assets in shares of companies based in or having significant operations in India, Pakistan, Sri Lanka or Bangladesh that are listed on exchanges worldwide.

The Fund may invest up to 100% of its assets in the Indian Subcontinent, in any industry, or companies of any size.

The Fund invests at least 90% in shares of high-quality companies which are positioned to contribute to, and benefit from sustainable development.

Investment decisions use a thematic sustainability approach and an assessment aiming to identify high quality companies based on three key points:

- ° Quality of management including integrity, attitude to environmental and social impacts, corporate management, long term performance and risk.
- ° Quality of the company including its social usefulness, their environmental impacts and efficiency and responsible business practices.
- ° Quality of the company's finances and their financial performance.

Sustainability decisions are made on information available and may be at risk if underlying information is incorrect or withheld.

The Fund's performance is compared against the value of the MSCI India Index.

The Fund is actively managed meaning that the Fund's manager uses expertise to pick investments rather than tracking a benchmark. A majority of the Fund's assets could be components of the benchmark. Investment of the Fund's assets is not constrained by the benchmark composition and the Fund's manager has discretion within the Fund's investment policy to invest in assets without regard to the benchmark.

The Fund may use derivatives to reduce risk or to manage the Fund more efficiently.

You can buy and sell shares in the Fund on any dealing day. A dealing day is generally defined as a day on which Irish banks and, if applicable, the relevant stock exchange(s) are open for business. Exceptions are noted on the FSI website. As long as we receive your instruction before 10 am (Irish time) on a dealing day, shares will be bought and sold at that day's price.

The Fund will not pay any income out; instead any income will be reflected in the value of your shares.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and reward profile

- The synthetic risk reward indicator (the SRRI) rating is not a measure of the risk of you losing the entire value of your investment but describes how much the value of the share class has gone up and down in the past. Where a share class has not yet launched, the SRRI is calculated using representative data.
- The SRRI rating is based on historical data which may not be a reliable indication of the future risks and rewards of the share class.
- We cannot guarantee that the rating of the share class will remain the same; it may change over time.
- Even the lowest rating 1 does not mean a risk free investment.
- On a scale of 1 (less risky) to 7 (more risky), this share class has a rating of 6 due to its past performance (or representative data) and the nature of its investments. Categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level, and 6-7 a high level.

- Risk is taken in order to make a higher potential return; the more risk a fund takes, the higher the potential return but the greater the risk of loss.
 - The value of the Fund and its return is not guaranteed and may fall as well as rise. You may get back significantly less than you originally invested. Material risks not adequately captured by the SRRI:
 - **Currency risk:** the Fund invests in assets which are denominated in other currencies; changes in exchange rates will affect the value of the Fund and could create losses. Currency control decisions made by governments could affect the value of the Fund's investments and could cause the Fund to defer or suspend redemptions of its shares.
 - **Single country / specific region risk:** investing in a single country or specific region may be riskier than investing in a number of different countries or regions. Investing in a larger number of countries or regions helps spread risk.
 - **Indian subcontinent risk:** although India has seen rapid economic and structural development, investing there may still involve increased risks of political and governmental intervention, potentially limitations on the allocation of the Fund's capital, and legal, regulatory, economic and other risks including greater liquidity risk, restrictions on investment or transfer of assets, failed/delayed settlement and difficulties valuing securities.
- For further information on risks, please refer to the Risk Factors section in the Company's prospectus.

Charges for this Fund

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	N/A
This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the fund over a year	
Ongoing charge	1.05%
Charges taken from the fund under certain specific conditions	
Performance fee	N/A

The entry and exit charges shown are the maximum you will need to pay. In some cases you might pay less - you can find out the actual entry and exit charges from your financial adviser.

As the share class is less than one year old the ongoing charge is based on estimated expenses. It may vary from year to year. It excludes portfolio transaction costs which are paid from assets of the Fund and performance fees, if any. The next Company annual report for the financial year will include details on the exact charges made.

There are fees for switching between sub-funds. The fee for switching into the Fund is 1%.

Further information can be found in the Buying, Selling, Converting, and Switching Shares section of the Company's prospectus.
