

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

US Short Duration Responsible High Yield Fund ("The Fund")

A sub-fund of SKY Harbor Global Funds

(Class F Monthly Distribution USD)

ISIN: LU1134537379

Lemanik Asset Management S.A. is the Management Company to SKY Harbor Global Funds.

Objectives Investment Policy

The Fund is an actively managed, long only, Socially Responsible Investing Strategy with financial and extra-financial objectives. The Fund's financial objective is to generate, without reference to a benchmark, a high level of current income with lower volatility than the Investment Universe. The Fund's extra-financial objective is to encourage corporate issuers of below investment grade debt to embrace Corporate Sustainability by, among other things, contributing to sustainable development through business activity that expressly manifests a commitment to implementing a whole-of-company approach to protect, respect, and where appropriate remedy adverse impacts on human rights, or to make substantial strides on the path toward it while also seeking to align with one or more of the 17 UN SDGs. The Fund's extra-financial objectives are assessed using Sustainability Factors measured in the Value Rubric such as for example Direct and Indirect GHG emissions (Scope 1 & 2), CSR or other public commitment to implementing a whole-of-company approach to protect, respect, and where appropriate remedy adverse impact on human rights. Furthermore, we have selected four Impact Indicators (one for each of the Environmental, Social, Governance and Human Rights dimensions) to monitor the extra-financial performance of the Funds vis-à-vis the Investable Universe (defined as the ICE BofA US High Yield index with ticker: H0A0) The Fund will integrate each of the Environmental, Social and Governance factor in its selection process.

In seeking to achieve the Fund's dual objectives, the Investment Manager shall exercise its discretion guided by an investment process rooted in fundamental analysis of issuers and industries, macro-economic and market conditions and characterized by a "bottom-up" and "top-down" approach that seeks superior long-term returns built through the compounding of income over time and the avoidance of principal losses while applying the following three SRI Strategies: 1) ESG Integration using a minimum threshold score in its proprietary ESG ratings system (the "Value Rubric"), 2) negative screening of fossil fuel and other sectors; and 3) Engagement with issuers. Further details of the Fund's approach to Sustainable Investing are in the Fund's prospectus or the Code. The Investment shall apply its SRI Strategies and its Value Rubric's minimum threshold scores to at least

90% of the Fund's NAV and at least 20% of the High Yield debt securities of the Investable Universe will be excluded from consideration in the Fund's portfolio. The Fund is permitted to invest outside the H0A0 index, although issuers of out-of-index securities in the portfolio (because of their size or tenor) are expected to predominantly also have issued bonds that qualify for inclusion in that index and to have thus been subjected to an ESG analysis. The Fund may invest in securities regardless of their rating and in securities which are not rated. The Fund will invest primarily in securities rated below investment grade (that is S&P and Moody's respectively). To the extent the Fund invests in securities rated below CCC or Caa by S&P and Moody's respectively, the Fund's liquidity shall be monitored in accordance with its risk management process. At the time of purchase the Fund is not envisaged to invest in securities in actual uncurable default or in bankruptcy or deemed by the Investment Manager to have an unreasonably high risk of imminent default or imminent bankruptcy. The Fund's aggregate holdings of securities that are in uncurable default of scheduled payment of interest or principal and securities whose issuers are in bankruptcy proceedings that have occurred after time of purchase shall in no case exceed 10% of the Fund's net asset values. The Fund may also, from time to time, invest in securities of foreign companies and, possibly, in obligations of governments or governmental agencies or instrumentalities. The Fund may also make temporary short-term investments in cash or in Money Market Instruments not to exceed 20% of the Net Assets to maintain liquidity for short-term defensive purposes or to comply with applicable regulations.

The reference currency of the Fund is the USD and the reference currency of this class is the USD.

A Shareholder may redeem its shares in the Fund on demand, on each day on which banks in Luxembourg and New York are open all day for business.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within a period of 1 year.

Risk and Reward Profile

The shaded area in the table above shows the Class' ranking based on the Synthetic Risk and Reward Indicator. The risk/return indicator suggests the relationship between risk and potential returns when investing in the Fund. The Fund has been classified as category 4 due to the nature of its investments, which include the risks listed below. This means that the purchase of units in the Fund is connected to medium risk of such fluctuations. Please note that category 1 does not mean a risk free investment. Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the fund; the category might change in the future.

The following risks are materially relevant to the Fund but are not adequately captured by the synthetic indicator and may cause additional loss:

- **Credit risk:** The default of the issuer of a debt instrument held by the Fund.
- **Liquidity risk:** Securities in the Fund may be sold below their valuation due to insufficient liquidity in the market.
- **Counterparty risk:** A counterparty may fail to pay the proceeds related to the sale of securities by the Fund or may fail to deliver the securities purchased by the Fund.
- **Event risk:** Unforeseeable events such as devaluations, political events, etc.
- **ESG risk:** Socially Responsible Investing does not guarantee optimal asset allocation, portfolio construction, or the most favorable risk adjusted returns, and the Fund's ESG criteria may not necessarily comport with an investor's own subjective, moral or ethical standards and aspirations.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial advisor or distributor.

The ongoing charges figure is based on expenses for the year ending 31 December 2022. Ongoing charges exclude performance related fees and transaction costs including third party brokerage fees and bank charges on securities transactions. For more information about charges, please see the section “Fees and Expenses” of SKY Harbor Global Funds’ prospectus as well as section “12. Fees” of Appendix II of SKY Harbor Global Funds’ prospectus.

One-off charges taken before or after you invest

Entry charge	2.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.08%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	The Fund is not subject to any performance fee.
-----------------	---

For more information about what is included in the ongoing charge figure and how this number is calculated, please refer to Appendix I of SKY Harbor Global Funds’ prospectus.

Past Performance

The share class performance (return) is calculated after deduction of ongoing charges. The possible entry and exit charges have not been taken into account.

The performance for all years has been calculated in USD and with dividends reinvested in the Fund, where applicable.

Past performance is not a guarantee for future performance.

The Fund came into existence in 2012.
