WHAT IS THIS PRODUCT?

Type:	An umbrella fund constituted as an investment company with variable capital under the laws of Ireland
Term:	The Fund does not have a targeted closure date and may be liquidated at any time, as further detailed in the Prospectus
Objectives:	<p>To seek to provide investors with attractive current income that is consistent with preservation of capital.</p> <p>Investment Policy: The Fund will navigate multiple sectors, including low and high grade investment grade income, as well as an increased allocation to high yield, depending on market conditions and attractiveness to generate income.</p> <p>The Fund will invest primarily in an actively managed diversified portfolio of investment grade fixed income instruments which are listed or traded on Recognised Markets. The Fund may invest in the above instruments subject to the following limits: (i) the Fund will invest no more than 35% of its Net Asset Value in below investment grade instruments; and (ii) the Fund is permitted to invest to a lesser extent in other types of debt instruments such as certain loan instruments (which may be securitised or unsecuritised) which qualify as money market instruments in accordance with the requirements of the Central Bank, collateralized loan obligations ("CLOs"), convertible bonds, including CoCos. Investment in each type of such debt instruments may not exceed 10% of the Fund's Net Asset Value respectively and they are not expected to be materially leveraged. The Fund may also invest in units and/or shares in collective investment schemes (subject to a limit of 10% of the Fund's Net Asset Value) where such investment is consistent with the investment objective of the Fund.</p> <p>The fixed income instruments in which the Fund invests may include instruments issued by governments, corporations, and supranational entities. The fixed income instruments shall include bonds, notes, debentures, treasury obligations, sovereign issues, covered bonds, commercial paper, certificates of deposit, banker acceptances and other fixed and floating rate income securities.</p> <p>Share Class Currency Hedging: This Share Class is not hedged. Investors can buy and sell their shares on demand on each Business Day (as defined in the Prospectus).</p> <p>Benchmark: 'Bloomberg Global Aggregate Bond Index'. The investment manager has complete discretion in making investments and is not constrained by the Benchmark. The Fund may invest significantly in instruments which are not included in the Benchmark. The Benchmark is used only for risk management and performance comparison purposes. The investment manager may consider, for example, issuer exposures, duration, sector weights, country weights, credit ratings and tracking error in each case relative to the Benchmark but does not use the Benchmark as an investment limitation.</p>

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator

The risk indicator assumes you keep the product for 1 Year. The actual risk can vary significantly if you cash in at an early stage and you may get back less than your initial investment. You may have to pay significant extra costs to cash in early.

You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of the fund to pay you.

In addition to market risk other risks could be triggered i.e. counterparty risk, currency risk, interest rate risk, operational risk and liquidity risk. Refer to the Prospectus for full details.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.
