### WHAT IS THE PRODUCT?

**Type:** Undertaking for Collective Investment in Transferable Securities (UCITS) under European Directive 2009/65/EC. An investment company with variable capital (société d'investissement à capital variable or "SICAV") under Luxembourg law.

**Term:** This product is not subject to any fixed term.

**Objectives:**

The sub-fund's objective is to seek regular, above-average income. Under normal circumstances, the sub-fund invests mainly in bonds and bond market instruments that meet strict ethical and financial criteria.

The sub-fund may also invest in other securities permitted by UCITS regulations. The sub-fund may use investment techniques and derivatives for efficient portfolio management (including hedging). The sub-fund is managed at the fund manager's discretion without reference to any benchmark. The manager uses its own analysis to identify those individual bonds that can offer the best overall combination of price, risk, income and also meet established ethical standards.

**Intended Retail Investor:** This product targets Retail and Professional investors and as a minimum requirement, is suited to a first time investor with a basic knowledge of investments. This product targets investors who intend to invest their money for a minimum period of 5 years. Rathbones defines the minimum recommended holding period of 5 years as Long Term. This product has no capital guarantee and investors may not get back the original amount invested. This product is appropriate for investors who have a risk appetite compatible with the SRI of the product as defined in the Prospectus. This product may be distributed as follows: on an execution only basis without a suitability assessment; with investment advice; or, as a component of a managed portfolio.

The depositary is HSBC Continental Europe, Luxembourg. Further information regarding the Fund, all available Sub-Funds and share classes, including copies of the prospectus, annual and half yearly report and accounts, can be obtained free of charge (in English and other required languages) from the registered office of the Company, 4, rue Paternechen, L-2370, Howald, Grand Duchy of Luxembourg.

**Be aware of currency risk. You may receive payments in a different currency than the Sub-Fund's base currency, so the final return you get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator above.**

Adverse market conditions, the use of derivatives, exchange rates and counterparty failure may affect the risk of this product. It is not protected and you could lose some or all of your investment.

This product does not include any protection from future market performance. Other risks to be considered may include: Asset class, Counterparty, Currency, Derivatives, Hedging, Liquidity, Sustainability, Volatility, amongst others. Please refer to the 'Risk Factors Overview' section of the prospectus and the sub-fund appendix for more details.

Please note this Key Information Document may provide data to represent both Accumulation and Income share classes. There may be some differences in applicable charges to specific share classes. Further information is available upon request to the Investment Manager.

### WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

**RISK INDICATOR**

Lower risk

Higher risk

The risk indicator assumes you keep the product for a minimum of 5 Years. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator ("SRI") is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class **3** out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the fund to pay you.

## PERFORMANCE SCENARIOS

## WHAT HAPPENS IF FUNDROCK MANAGEMENT COMPANY S.A. IS UNABLE TO PAY OUT?

The Management Company is responsible for administration and management of the Fund, and does not typically hold assets of the Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss. This product has no capital guarantee and investors may not get back the original amount invested.

## WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and should show you the impact that all costs will have on your investment over time.

### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods:

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- GBP 10 000 is invested.

Investment: 10 000 GBP	If you exit after 1 Year	If you exit after 5 Years
Total Costs	65 GBP	366 GBP
Annual Cost Impact*	0.65 %	0.66 %

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.96% before costs and 2.30% after costs.
